ADDITIONAL INFORMATION

Projects

12/2022 – CURRENT

Personal site Personal website where I show my CV, the technologies I like most, the technologies I had the opportunity to work on and also some case studies of some features for my employer where they are on websites where I do not have rights to demonstrate the code.

07/2021 – CURRENT

Personal - Routineris Website for photos in the cloud. It allows the user to create maps (which we can call albums) where it is possible to invite other people to contribute their photos to the same map. Basically, this application works like a family social network.

09/2017 – CURRENT

OLX - Imovirtual Portal specialized in real estate classifieds, where we can find advertisements for the sale and rental of properties, such as houses, apartments, land, among others, for the Portuguese market.
#locations #adverts #feeds

09/2017 – CURRENT

OLX - Otodom Portal specialized in real estate classifieds, where we can find advertisements for the sale and rental of properties, such as houses, apartments, land, among others, for the Polish market.
#locations #adverts #feeds

09/2017 – CURRENT

OLX - Storia Portal specialized in real estate classifieds, where we can find advertisements for the sale and rental of properties, such as houses, apartments, land, among others, for the Romanian market.
#locations #adverts #feeds

09/2016 – 08/2017

OLX - Atlastock Website that served as a real estate business tool and allowed consultants to manage the properties in their portfolio. One of the main features was the export of properties to Imovirtual and/or OLX, transforming this content into advertisements visible to the public.

07/2015 – 08/2016

Blackorange - Young Great Westerners! Website of a British railway company for a project associated with public education where the goal is to publicize the same and at the same time give students from various schools the possibility of discovering points of interest in Great Britain accessible when traveling via the British railway network.

07/2014 – 07/2015

Blackorange - PA Mysite Company information and contact portal. Custom web page generator for PA clients via mysite-page solution for instant publishing.

01/2016 – 08/2016

Blackorange - THU Website that works as a communication platform for articles, initiatives and promotes the THU event that combines conferences, festival and meeting for professionals in digital media, animation, visual effects, design and related areas that aims to bring together talented and inspiring artists.

08/2011 – 07/2013

Gatewit - Requisition Website for managing products, orders, purchase orders, stocks and requests. Allows different degrees of access and permissions per user depending on their profile. Integration with the "Compras públicas" website to launch procedures and process awards.

07/2013 – 06/2014

Gatewit - Warehouse Website for stock management, controlling prices and costs of various items, creating stock-out alerts, creating orders and preparing purchase orders. Allows management and control of movements. Personalized usage profiles per user. History of all actions performed and their respective users.

08/2010 – 08/2011

Gatewit - Compras Públicas Management platform and procedures for contracting goods and services. Through this application, suppliers could consult public advertisements and present their offers and associated value. Also through this application, all offers were analyzed to obtain the award of the good or service.
